Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

1. Applicant's arguments with respect to claims 1-46,48-57 have been considered but are moot in view of the new ground of rejection.

Allowable Subject Matter

2. The indicated allowability of claims 1-46,48-57 is withdrawn in view of the previously used reference to Cluff et al. (Cluff), U.S. Patent Application No. 2003/0096639. Rejections based on the newly cited reference follow.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 1-46,48-57 are rejected under 35 U.S.C. 102(e) as being anticipated by Cluff et al. (Cluff), U.S. Patent Application No. 2003/0096639.

Regarding claim 1-46,50-57, Cluff discloses an article, comprising

a storage medium having instructions stored thereon (i.e., inherent in ringier software programs), the instructions when executed (reads on software program)

indicating presence of an incoming call by responding to receipt of a first incoming signal indicative of the incoming call (reads on call received) (**page 1, [008,0013]**) and receipt of a second incoming signal indicative of an identifying number identifying a telephone from which the incoming call originated (reads on caller identification) by selecting a radio signal (i.e., from a particular caller) associated with the indicated identifying number (reads on caller identification associated with a particular caller) (**page [0013]**); and providing an audio output (reads on customized ringer) of an audio signal derived from the selected radio signal (**page 1, [0013-0014]**).

Regarding claims 48 and 49, Cluff discloses an article as claimed in claim 47, respectively, wherein the instructions when executed (reads on software program) further respond to receipt of a second incoming signal indicative of an identifying number identifying a telephone for which there is not an associated radio signal by selecting a default radio signal; and providing an audio output of an audio signal derived from the default radio signal (i.e., reads on caller id is not utilized) (and ringing signal, reads on audible customized ringer) (**page 1 [0014-0015]**).

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joy K Contee whose telephone number is 703-308-0149. The examiner can normally be reached on M (alternating), T & Th, 5:30 a.m. to 2:00 p.m.
